Gardening Together-Growing Healthy Families

Breakout Sessions Held from 6:15-7:15 pm

“How to have a Healthy Baby”

Come learn about the services Iredell County Health Department provides for expectant mothers, infants and children. Listen to information about the Prenatal Clinic, WIC Clinic, MCC and CSC programs.

Parenting 101- The Early Years: Ain't Misbavin'

This session offers an introduction into the role of a parent and the role of the child (child development). We will talk about the expectations we have of our children and how we sometimes make our job harder - as well as offer strategies that allow you to avoid some of the parenting traps!

Parenting Teens- Supervision to Support Presented by SCAN

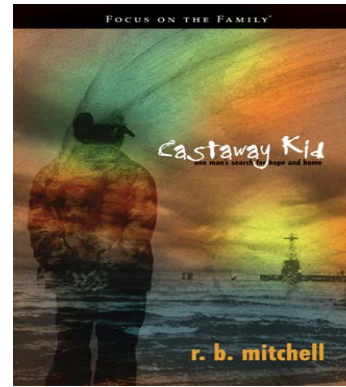

Join us for education on improving parenting skills, problem solving abilities and reducing teen pregnancy in addition to other information pertaining to parenting teens.

Extended Family Parenting

A panel of Extended Family Parents will provide support and additional information to those who are raising an extended family member. Raising a child takes a community.

Key Note Speaker:

R.B. Mitchell

With a heart for the forgotten and unloved children of the world, Rob Mitchell is what Paul Harvey would definitely call "the rest of the story."

Author Rob Mitchell shares his personal journey about his life growing up in foster care. He devotes his time to helping others. His focus is on the treatment of children in the foster care system. He hopes to challenge adults to better understand foster children and he challenges youth to overcome their circumstances and succeed.

Growing Healthy Families

The “Forgotten Children”, the expecting parent, the grandmother parenting grandchildren, the troubled teen and the parent who needs advice are welcome to attend the Healthy Family Fair. The Regional Child Fatality Team for Region III of the State of North Carolina invites you to participate in a fun and energetic learning experience. Our goal is to offer education, support and advice to ensure the growth of healthy families. The mission for our team is to improve child abuse laws. Currently our focus is on the improvement of child abuse laws for the newborn child. Please join us... We are very excited to meet you and your family.
